| ,,                                                                                                                                                                                                                                                                                                                                     |        | NONE                       | NO   |  |  |  |  |
| 2. Citations and explanations:  Claims ! (in part), 2 and 6 lack novelty under PCT Article 33(2) as being anticipated by US 5,756,747, see col. 17, line 36.  Claims 3-5, 7-11 meet the criteria set out in PCT Article 33(2), because the prior art does not anticipate the claims 4-amino-1H-                                        |        |                            |      |  |  |  |  |
| imidazol[4,5-c]pyridine compounds or the particular R <sub>A</sub> -                                                                                                                                                                                                                                                                   | _      |                            |      |  |  |  |  |
| Claims 1, 2, 5-8, 11 lack an inventive step under PCT Article 33(3) as being obvious over US 5,756,747. The species wherein Z is CO was anticipated by '747 example 26. The broader scope of the other claims are obvious variation of protecting groups as disclosed by the references see col. 5-8, reaction scheme and description. |        |                            |      |  |  |  |  |
| Claims 3, 4, 9, 10 meet the criteria set out in PCT Article 33(2)-(3) because the prior art does not teach or fairly suggest the claimed compounds.                                                                                                                                                                                    |        |                            |      |  |  |  |  |
| Claims 1 (in part), 2-11 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject                                                                                                                                                                                                    |        |                            |      |  |  |  |  |

matter claimed can be made or used in industry.
